

Esthyak Ahmmed Siyam

Full Stack Software Engineer — MERN Stack | React Native | Web Application Security

Location: Alif-5, Zakir Hossain Road, Mohammadpur, Dhaka 1207 | **Phone:** 01792216396
Email: ssiyam563@gmail.com | **GitHub:** github.com/siyam-io | **Portfolio:** siyam-three.vercel.app

PROFILE SUMMARY

Full Stack Software Engineer with 1.3 years of experience building scalable web and mobile solutions using Node.js, Express, React, Next.js, MongoDB, and Expo (React Native). Proficient in RESTful API architecture, real-time data streaming via Socket.io, modern Tailwind CSS interfaces, and automated cloud deployments on Vercel and Render. Specializes in architecting scalable backend APIs and real-time applications with a strong emphasis on secure coding practices, database optimization, JWT authentication, and cross-platform mobile performance.

CORE COMPETENCIES

Full Stack Web Engineering Mobile Application Development Backend Architecture & APIs Frontend & UI/UX DevOps & Security

TECHNICAL SKILLS

Node.js Express.js React.js Next.js React Native (Expo) MongoDB JavaScript REST API Socket.io
JWT Authentication Tailwind CSS RBAC Vercel & Render Deployment UI/UX Strategies Database Management C#

PROFESSIONAL EXPERIENCE (TOTAL: 1.3 YEARS)

Full Stack Developer (Freelance) 17 Jan 2026 – 31 Aug 2026 (0.7 yrs)

The Culinary Institute of Bangladesh — Dhanmondi, Dhaka

Expertise: Express.js, MERN Stack, MongoDB, Node.js, React.js, REST API (7 months each)

- Architected and developed the full-stack management system for the Culinary Institute of Bangladesh using React, Node.js, Express, and MongoDB.
- Built role-based access control (RBAC), vision scanning algorithms, batch scheduling workflows, and automated PDF certificate generation services.
- Designed and integrated secure RESTful APIs along with responsive frontend dashboards using modern UI/UX patterns.

Web Developer (Freelance) 01 Apr 2025 – 29 Nov 2025 (0.7 yrs)

Savior Lifestyle

Expertise: Database Management, Express.js, MERN Stack, Node.js (7 months each)

- Developed an end-to-end customized inventory management system.
- Maintained and upgraded existing digital architecture.

EDUCATION

Exam Title	Concentration / Major	Institute	Passing Year
Bachelor of Science (BSc)	Computer Science & Engineering	Shyamoli Engineering College	2027

TRAINING

Training Title	Topic	Institute	Year	Duration
Back End Development and API Architecture	Node.js, Express, MongoDB, RESTful APIs	freeCodeCamp	2026	6 months
Modern Full Stack Web Development	Deep dive into React, Redux, Node.js, Express, MongoDB, GraphQL & TypeScript	University of Helsinki	2025	3 months

PROFESSIONAL QUALIFICATION

Certification	Institute	From	To
Foundational C# Certification / Back End Developer Certificate	freeCodeCamp x Microsoft	15 Apr 2026	15 Jul 2026

SKILL SUMMARY

Full Stack Software Engineer proficient in the MERN stack (MongoDB, Express.js, React, Node.js), Next.js, and React Native (Expo). Experienced in building real-time applications with Socket.io, designing secure RESTful APIs, and implementing JWT authentication. Skilled in modern UI/UX development using Tailwind CSS, state management, and deploying microservices on Vercel and Render, with a strong emphasis on writing clean, scalable, security-first backend code and cross-platform mobile integration.

KEY PROJECTS & ACCOMPLISHMENTS

Personal Portfolio Website | Developer

siyam-three.vercel.app

Full-stack developer portfolio showcasing MERN stack, Next.js, and React Native projects. Features interactive UI/UX, responsive designs, real-time application demos, and direct links to GitHub source code and live deployments.

Chat Z — Real-Time Messaging Application

github.com/siyam-io/chatz

Full-featured real-time chat application built with React, Node.js, Express, and Socket.io. Features instant bi-directional messaging, online user status tracking, room/group creation, media sharing, and JWT authentication. Optimized for low latency and smooth UI/UX responsiveness.

Multi-Vendor E-Commerce & Inventory Platform

clothing-e-commerce-web.vercel.app

Multi-vendor apparel e-commerce platform with dynamic theme engine, real-time inventory management, and backend microservices. Built using Next.js, Node.js, Express, and MongoDB with integrated Pathao Courier service and payment flows.

Publication: Design & Implementation of a Secure Real-Time Social and Communication Platform

github.com/siyam-io/chatz (Thesis Book)

Undergraduate CSE thesis on the design and architectural implementation of a secure, low-latency real-time social platform, utilizing Node.js, Express, Socket.io, and MongoDB for bi-directional data streaming, secure authentication protocols, and end-to-end data integrity.

EXTRA-CURRICULAR ACTIVITIES

- Active Competitive Programmer** — regularly participates in online coding contests, practicing data structures and algorithms to improve problem-solving speed and logical efficiency.
- Former Bangladesh Scouts Member** — active scout during high school (Classes 8–10), demonstrating leadership, teamwork, discipline, and community service skills.
